

ASCO BOSNIA d.o.o.

SCREW CONVEYOR

SCREW CONVEYOR METAL

Screw conveyors are designed for the transport of dry, powdery to granular bulk goods as well as for biomass, pellets, metal chips etc. They can be used in emptying, dosing, sieving, loading and mixing the goods.

SCREW CONVEYOR METAL

Screw conveyors are designed for the transport of dry, powdery to granular bulk goods as well as for biomass, pellets, metal chips etc. They can be used for emptying, dosing, sieving, loading and mixing of material.

Modular systems for screw conveyors guarantee quality and an optimal price-performance ratio.

TYPES

Besides our standard screw conveyor as shown on the photo, ASCO BH offers a wide range of different types of conveyors such as horizontal and angled screw conveyors in three varieties:

Metal chip screw conveyor

- Shaft with spiral or shaft with spiral made out of segments
- Material of wear plates and spiral: Hardox
- Screw conveyor for metal

Metal chip screw conveyor without wear plates

- Shaft with spiral or shaft with spiral made out of segments
- Material: S355
- Screw conveyor for other materials like cement, calx and other sieve materials

Biomass screw conveyor

- Infinite spiral without shaft
- Material: S355
- Screw conveyor for wood chips

TECHNICAL DATA

Dimensions: L=3,440 mm
 H=685 mm
 W=330 mm
